

THE BAM

THE WILLIE JOHNSON STORY

**FROM THE SAVAGE STREETS TO 7 WORLD CHAMPIONSHIPS
MEET THE MAN WHO BEAT THE ODDS.**

The story of Willie “The Bam” Johnson is not unique in the sense of lost wayward youth. What is unique and compelling is what Willie endured to overcome his tragedies and personal demons to become the man he is today. His story is an example of what we should aspire to achieve as mentors, teachers, entrepreneurs and good human beings.

Willie goes in-depth about the dangers he faced while growing up in poverty-stricken Baltimore and pulls no punches. He leaves himself vulnerable to tell his story so that the youth today do not make the same mistakes and judgements he did. Today, he is an accomplished martial artist and a seven-time world champion. More important is that he is a family man with a vision, a strong belief in God and a mentor for today’s youth.

From his role on the WMAC Masters television series to the cover of Black Belt Magazine, “The Bam” is legendary in the martial arts arena and is using his platform to be a blessing to everyone he can reach! Hard work, discipline, goal setting and activity are the tenants that keep him reaching new heights.

Bam is the founder of Point MMA, a sporting event that he plans to implement in schools throughout the America.
